

Clinical Overview

Kabrita Goat Milk-Based Infant Formula

Kabrita Goat Milk-Based Infant Formula Powder with Iron is specially developed for healthy term infants 0-12 months

Unique European-made formula

- Kabrita is the first and only EU-made and goat milk-based infant formula to meet all FDA requirements

Trusted around the world

- Available in over 35 countries, feeding more than 1.2 million babies worldwide, each day

Safety and Quality are top priority

- Meets US and EU safety and manufacturing standards
- The first and only goat milk-based infant formula to achieve Clean Label Project's three strict certifications: Purity Award, Pesticide-Free Certification, and First 1,000 Day Promise Certification

Naturally easy to digest protein

- Contains a whey:casein ratio of 60:40, just like the ratio found in mature breast milk
- Goat milk has whey proteins that are easier to digest than cow milk whey proteins & a unique casein protein composition that's more similar to that of breast milk than cow milk

Premium Fat Blend

- Contains a high proportion of SN-2 palmitic acid, which mimics the fat structure found in breast milk and supports better calcium and fat absorption
- 20mg of plant-based DHA per 100 calories, meeting EU requirements

Nutritionally complete

- Contains 25 essential vitamins and minerals, DHA, ARA, and prebiotics
- Meets US FDA nutrition requirements for all nutrients and European nutrition requirements where possible
- 28 fl oz meets the daily vitamin D recommendation of 400 IU for infants

POWDER COMPOSITION

Grams per unpacked, level scoop	4.5 g
Calories per gram	4.99 kcal
