Kabrita® Goat Milk-Based Infant Formula

Kabrita Goat Milk-Based Infant Formula is developed for healthy infants from 0-12 months old.

PREPARATION INSTRUCTIONS

To make 20 kcal per fluid oz, follow the preparation instructions on the back of the can.

The tables on this handout are intended for healthcare professionals only and provide the amount of infant formula powder and water needed to concentrate Kabrita Goat Milk-Based Infant Formula to 24, 26, and 28 kcal per fl oz.

Use only the scoop provided in the Kabrita Goat Milk-Based Infant Formula can. If using the grams measure for powder instead, we advise to weigh the powder on a gram scale.
