

## Clinical Overview

# Kabrita goat milk-based infant formula

**Kabrita goat milk-based infant formula** is specially developed for healthy infants from 0-12 months old.

### ✓ Unique European formula

Kabrita is the first and only European and goat milk-based infant formula brand to meet all FDA requirements

### ✓ Trusted around the world

Available in over 35 countries, more than 1.5 million babies worldwide are fed with Kabrita daily

### ✓ Safe, high-quality ingredients directly from Europe

Kabrita uses 100% goat milk from the Netherlands, and follows strict European safety standards, undergoing 90+ quality checks.

### ✓ Nutritionally complete

Contains 25 essential vitamins and minerals, DHA, ARA, and prebiotics

### ✓ Ideal protein ratio

Contains a whey:casein ratio of 60:40, just like the ratio found in mature breast milk

### ✓ Specially formulated blend of fats

- The sn-2 palmitic acid in Kabrita infant formula matches the fatty acid profile of breast milk more closely and leads to improved calcium absorption, fat absorption, and stool consistency
- Kabrita contains DHA and ARA, two types of omega fatty acids necessary for developing tiny brains and vision

### ✗ No GMOs, antibiotics or growth hormones

### ✗ No corn syrup

## INFANT POWDER COMPOSITION

Grams per unpacked, level scoop	~4.5g
Calories per gram	~4.99 kcal
Calories per scoop	~22 kcal
Calories per 100g	499 kcal
Protein per gram	~0.126g

## INFANT PREPARED FORMULA

Calories per fluid ounce	20 kcal
Protein per 100ml	1.7g
Displacement per scoop	0.1 fl. oz.
Osmolality	315 mOs/kg
